CONDITIONS

10. Licensed material may be used or stored at the licensee's facilities located at 15 Research Park Dr., St. Charles, MO, 63304.

11. Licensed material shall only be used by, or under the supervision of:

Authorized User

Erwin Bankston, Jr.
Susan Curry
Shirley Lin

Material and Use

For research and development use of iodine-125 as permitted under the license
For research and development use of iodine-125 as permitted under the license
For research and development use of iodine-125 as permitted under the license

12. The Radiation Safety Officer (RSO) for this license is James C. Hatten.

13. The licensee is authorized to hold radioactive material with a physical half-life of less than or equal to 120 days for decay-in-storage before disposal in ordinary trash provided:

- A. Before disposal as ordinary trash, the waste shall be surveyed at the container surface with the appropriate survey instrument set on its most sensitive scale and with no interposed shielding to determine that its radioactivity cannot be distinguished from background. All radiation labels shall be removed or obliterated, except for radiation labels on materials that are within containers and that will be managed as biomedical waste after they have been released from the licensee.
- B. A record of each such disposal permitted under this license condition shall be retained for three years. The record must include the date of disposal, the date on which the byproduct material was placed in storage, the radionuclides disposed, the survey instrument used, the background dose rate, the dose rate measured at the surface of each waste container, and the name of the individual who performed the disposal.
