Avila Beach, CA 93424

SUBJECT: ACCEPTANCE OF PACIFIC GAS & ELECTRIC COMPANY REQUEST FOR
LICENSE AMENDMENT 21-02 (DOCKET NUMBER: 72-27, EPID NUMBER
L-2021-LLA-0228)

Dear Maureen Zawalick:

The U.S. Nuclear Regulatory Commission (NRC) staff has received your submittal dated December 14, 2021 (Agencywide Documents Access and Management System {ADAMS} Number ML21348A389), requesting revisions to the Humboldt Bay Independent Spent Fuel Storage Installation Special Nuclear Materials License Number SNM-2514 and Technical Specifications.

We have completed our acceptance review of your submittal and have identified no administrative omissions or deficiencies that would prevent us from proceeding with a detailed review. Your submittal has been assigned Cost Activity Code (CAC)/Enterprise Project Identification Number (EPID) 001028/07200027/ L-2021-LLA-0228. Please reference this number and Docket Number 72-27 in any future correspondence associated with this request.

Please note the NRC staff's technical review of your submittal may identify issues that could require that you provide additional information. Based on our preliminary evaluation and projection of current review schedules, we anticipate completing our formal review by September 2022. This schedule includes the issuance, if needed, of a request for additional information (RAI) by April 2022 and receiving your response to the RAI 30 days after its issuance. Please note these dates could change depending on the findings of our technical review, urgent assignments, or other factors, such as whether your responses to the RAI are not adequate. Within 30 days after completion of the NRC staff review of your application/submittal, a notice will be published in the *Federal Register* to inform the NRC staff's decision regarding your submittal. The NRC staff estimates that completing the review of your submittal will require approximately 260 staff hours which corresponds to about \$74,880. We will promptly communicate significant schedule and/or cost changes, if any.

In accordance with Title 10 of the *Code of Federal Regulations*, Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of the NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions regarding this communication, please contact me at 301-415-1035 or via e-mail at Donald.Habib@nrc.gov.

Sincerely,

Signed by Habib, Donald
on 02/03/22

Donald Habib, Project Manager
Storage and Transportation Licensing Branch
Division of Fuel Management
Office of Nuclear Material Safety
and Safeguards
