Docket No. 03011595

Stepan Chemical Company  
ATTN: Mr. E. A. Swanson  
Plant Manager  
100 W. Hunter Avenue  
Maywood, New Jersey 07607

Gentlemen:

Subject: Inspection 76-01 and License No. 29-13725-02

This refers to your letter dated April 11, 1977, in response to our letter dated April 6, 1977.

Thank you for informing us of the corrective and preventive actions you documented. These actions will be examined during a subsequent inspection of your licensed program.

With respect to your statements as Mr. J. Davis of this office discussed with you in a telephone conversation on April 14, 1977, you are advised that you will remain in noncompliance until the new license is issued authorizing your source material.

Your cooperation with us is appreciated.

Sincerely,

Paul R. Nelson, Chief  
Fuel Facility and Materials  
Safety Branch

Gentlemen:

In your letter of April 6, 1977 you refer to License #29-13725-02. This license is for storage of by-product materials, Tritiated Proteins. In your letter of January 19, 1977 you stated that we were in violation for storing source material without an up-to-date license. The former license number for the storage of this source material is License # STC 130. We recently refiled for the renewal of this license. A copy of our letter to U. S. Nuclear Regulatory Commission, Washington, D. C. is attached.

Very truly yours,

*EASwanson*

Attn: Mr. Douglas Weiss

Gentlemen:

Enclosed is our application in quadruplicate to renew our source material license, STC-130 which has lapsed since February 1972. Enclosed, also, is our check for \$80 for the application fee involved.

It is my understanding that the \$80 fee is a "one time" fee and does not have to be paid each year and that the license has to be renewed each five years.

If you have any questions concerning the information on the application, please do not hesitate to contact us.

Very truly yours,

E. A. Swanson  
Plant Manager
