Mr. Eber R. Price, Assistant Director
Division of Licensing and Regulation
United States Atomic Energy Commission
Washington 25, D. C.

Dear Mr. Price:

Thank you for your letter of September 1 which was received here during my recently concluded vacation.

You will be encouraged to learn as are we, that the Grace Chemical Company (Davison Chemical Division) has indicated its willingness to take over the ownership of our Radioactive products and intermediates. Therefore this would seem to solve any long-term problems.

We have just completed fencing the open stockpile of which you spoke guaranteeing personnel safety. This together with the corrected sign posting would seem to correct the deficiencies listed.

Thank you for your cooperation.

Very truly yours,

MAYWOOD CHEMICAL WORKS
Division of Stepan Chemical Co.
