Lisle, IL 60532-4352

Subject: Amendment To Material License 21-02335-06

Dear Robert Orlikowski:

I am requesting an amendment to Material License (21-02335-06) for DTE Energy's Trenton Channel Power Plant located in Trenton, Michigan. This License amendment is for a 5-year extension to the expiration date on the license because the Trenton Channel Power Plant will be permanently shutting down in May 2022. This extension will allow us the time needed to properly dispose of the gauging devices.

If you have any questions or require additional information, please contact me at 734-586-5301.

Sincerely,

Heather Lucier
Radiation Protection – Senior Engineer

Good morning, Sandy and Martha,

Can you please put the attached in ADAMS?

Thank you!!
Tammy

Subject: FW: Amendment to Material License 21-02335-06

Hi Tammy,

Can you please process this into the system?

I already discussed with Sara and she agreed to take this action on. The license expires on February 28 so we've got a month to process.

Thanks,

Bob
