Ref: NRC Request for Additional Information
License Renewal
33-27066-01

Dear Roberto Torres:

This letter is in reference to your email dated February 4, 2022 requesting additional information for our license renewal.

Material Testing Services is requesting storage and/or use of licensed material at temporary job sites of licensee anywhere in the United States where the NRC maintains jurisdiction.

We will develop, implement, and maintain procedures for ensuring accountability of licensed materials at all times.

We will store records required by the NRC at 3001 North Broadway in Minot, ND. These records will be made available for review during NRC inspections.

Sincerely,
MATERIAL TESTING SERVICES, LLC

Subject: NRC request for additional information

Mr. Wald, President and RSO:

The NRC has completed the technical review of your application to renew NRC license 33-27066-01, and three deficiencies were identified. Please submit by reply email as a pdf file a signed and dated letter with the following information.

1. Request storage and/or use of licensed material at temporary job sites of the licensee anywhere in the United States where the NRC maintains jurisdiction.
2. The following commitment was omitted in the license renewal application. It is listed in Appendix B of NUREG-1556, Volume 1, revision 2. Provide the following statement: "We will develop, implement, and maintain procedures for ensuring accountability of licensed materials at all times."
3. Indicate the physical address where the licensee will store records required by the NRC, and state that these records will be made available for review during NRC inspections.

Thank you for your cooperation.
