Subject: Amendments to Indemnity Agreements

In the Reference 1 letter, and in accordance with 10 CFR 50.80, 10 CFR 50.90 and 10 CFR 72.50, Exelon Generation Company, LLC (EGC) requested written consent approving the indirect transfer of the facility operating licenses and other cited supporting licenses for the plants noted above in support of the EGC Spin Transaction. The U.S. Nuclear Regulatory Commission (NRC) approved the Order involving the indirect transfer of the cited licenses on November 16, 2021

(Reference 2), and the NRC subsequently issued the conforming license amendments on February 1, 2022 (Reference 3), to reflect the indirect transfer of ownership from EGC to Constellation Energy Generation, LLC for the affected licenses.

The Reference 3 letter also forwarded electronically signed copies of the applicable amended Indemnity Agreements for each noted facility, which are required in connection with the indirect transfer of the licenses. The NRC staff requested that applicable parties sign these amendments, and within 15 days, return a signed copy of each amendment to the NRC's Document Control Desk as proof of acceptance. Accordingly, the enclosures to this letter include a signed original of the amended Indemnity Agreements for each of the affected facilities.

There are no regulatory commitments contained in this submittal.

If you have any questions, please contact David P. Helker at 610-765-5525.

Respectfully,

David P. Helker
Sr. Manager, Licensing
Constellation Energy Generation, LLC
