March 15, 2022

Mr. Kevin Smith
Corporate Radiation Safety Officer
Water Remediation Technology, LLC
901 W. 116th Avenue, Suite 400
Westminster, CO 80234

SUBJECT: AMENDMENT 2 CHANGING RADIATION SAFETY OFFICER FOR WATER
REMEDICATION TECHNOLOGY LLC, SOURCE MATERIAL LICENSE SUC-1591

Dear Mr. Smith:

By letter dated January 4, 2022 (available in the U.S. Nuclear Regulatory Commission's [NRC] Agencywide Document Access and Management System [ADAMS] at Accession No. ML22048B577), Water Remediation Technology, LLC (WRT) submitted to the NRC a request for approval to change the Radiation Safety Officer (RSO) of NRC Materials License Number SUC-1591.

The NRC has completed its review of the license amendment application and associated documents using guidance in NUREG-1556, Volume 18, Section 8.7, and Appendix D. The NRC has determined with reasonable assurance that the proposed RSO is qualified by training and experience in radiation protection and will be available for advice and assistance on radiological safety matters, and the licensee's application complies with requirements specified at Title 10 of the *Code of Federal Regulations* (10 CFR) 40.32(b) and License Condition 16. License Amendment No. 2, which is an administrative amendment referencing WRT's request to change RSO, is enclosed. As an administrative amendment that only changes the RSO identified in License Condition 10, the NRC's action is eligible for categorical exclusion or otherwise not requiring environmental review per 10 CFR 51.22(c)(10)(iv).

Please verify that the information contained in the enclosed amended license is correct.

In accordance with 10 CFR 2.390, a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC website at <https://www.nrc.gov/reading-rm/adams.html>.

Should you have any questions concerning this letter or identify any errors in the amended license, please do not hesitate to contact Christopher Grossman of my staff, either via telephone at 301-415-0140 or by e-mail at Christopher.Grossman@nrc.gov.

Sincerely,

Signed by Koenick, Stephen
