Subj: **Amendment to Radioactive Materials License 030-38762**

Dear Mr. Schaffer:

Siemens Medical Solutions, USA Inc. (SMS), will modify CX RC-US Authorized User Radiation Protection Program and CX RC-US Dosimetry Monitoring Procedures to remove extremity monitoring as a requirement when performing licensed activity under SMS Radioactive Material License 030-38762.

If you have any questions or concerns, please feel free to contact me.

With best regards,

# SIGNATURE AUTHORIZATION

Wednesday, April 18, 2018

Memo To: Matthew Daut, Chief Radiation Safety Officer  
From: Michael Wendt, Senior Vice President for Customer Services

**Subject: Delegation of Signature Authority for Radioactive Material Licenses**

I hereby delegate authority to you for making commitments and signing amendment requests with regard to radioactive material licenses on behalf of senior management for *Siemens Medical Solutions 221 Gregson Drive, Cary, NC 27511*. This authority extends to the maintenance and operation of all state and federal radioactive material licenses.

As a member of management, I recognize the radioactive materials license is a legal document that includes the application and all approved amendments. Furthermore, only management can obligate the institution and management is held accountable for the commitments in the license. In addition, I acknowledge that only a member of management has authority to provide necessary resources to achieve regulatory compliance. Necessary resources include finance, personnel, and physical plant.

Delegation of Signature Authority:

   
\_\_\_\_\_  
Michael Wendt  
Senior Vice President of Customer Services

I hereby accept the above delegated authority:

   
\_\_\_\_\_  
Matthew Daut  
Chief Radiation Safety Officer
