

Safety Culture Effectiveness Review

Molly Keefe-Forsyth
Safety Culture Program Manager
NRR/DRO

Purpose of the Review

- Evaluate how safety culture is currently incorporated into ROP
- Determine whether this is achieving its objective of sufficiently detecting safety culture issues
- Provide recommendations on any necessary program changes

Review will include:

- Understanding how safety culture is currently incorporated in the baseline and supplement inspection procedures and manual chapters and identification of any gaps.
- Determining what training is currently provided to inspectors in the area of safety culture and identifying any gaps.
- Determining what licensee information is currently available to the inspection staff to determine the health of safety culture at each site.
