Dear Ms. Brandt –

The NRC conducted an inspection of the University of Wyoming, Inc on November 17, 2021 at your facilities, and continued in office review through February 9, 2022. As was discussed on March 1, 2022, the inspection identified three apparent violations. Before the NRC makes its enforcement decision on the apparent violations, we are providing you three choices on how to respond. You may choose to: (1) respond in writing within 30 days of the inspection report, (2) request a predecisional enforcement conference, or (3) request Alternate Dispute Resolution. **You must inform me of your choice within 10 days from the date of the attached inspection report.** My contact information is in the inspection report and under my signature block.

Please note that this electronic transmittal of this inspection report serves as the official copy, you will **not** be receiving an additional copy in the mail. Please feel free to contact me if you have any additional questions.

Thanks,

Lizette
