DEVICE REGISTRATION CERTIFICATE NR-1138-D-101-S**

Dear Mr. Vanderpool:

This letter is in response to the Hopewell Designs, Inc. application dated November 8, 2021, requesting an amendment to NR-1138-D-101-S sealed source and device registration certificate for the G10 Series Irradiators. We have completed our review of your request, and a copy of the amended registration certificate NR-1138-D-101-S is enclosed.

Please be advised that you must manufacture and distribute any registered product in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificates. A registration certificate is meant to indicate that your product is acceptable for licensing purposes but does not authorize distribution or possession of radioactive material. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificate.

Please read over the registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing if you decide to no longer manufacture, distribute, or offer service support for the product.

C. Vanderpool
