Mr Frank Tran
NRC Region III,

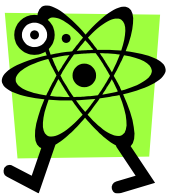

I have attached the update to the Survey policy for Wilson Vets.

If there are any concerns or questions on this email me at lsphysics@att.net.

Thank you,

A handwritten signature in black ink that reads "Laura T. Speer Smith".

Laura T. Speer Smith, MS, DABR
Radiation Physicist

Wilson Vets

Additional Procedure for Area Surveys

In addition to our standard policy on Area Surveys, we will perform at our facility area surveys in between patients (dogs) if there is an animal in the treatment room for isolation. This will assure a safe working environment for staff entering the room to care for the isolation patient.

Subject: [External_Sender] policy for surveys - wilson vets

Good morning Mr. Tran,

So nice to see you on Friday, I wish I would have sent this over the weekend, but things got busy and sending it now.

This is the amendment to the policy for the in-between surveys, I will be there at the treatments to assure this happens.

We have scheduled treating patients soon - 10 lined up to go, there is a huge list of patients who need this and we are happy for the approval, so let me know if there is any question quickly.

Thank you,

Laura Speer Smith
