Amendment Request

The amendment is to request the removal of 6B from license 49-08631-01 (Cesium-137 400mCi).

This material was added to the license as we were planning to replace our current calibration source with a new one.

The project did not come to fruition and we did not receive the source from J.L. Shepherd and do not have any current plans to pursue a new source.
