Mr. Kenneth Erwin, Chief  
Environmental Review New Reactor Branch  
Division of Rulemaking, Environment, and Financial Support  
Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

Dear Chief Erwin:

Thank you for the letter of notification regarding the United States Nuclear Regulatory Commission requesting to initiate Section 106 consultation and scoping for Kairos Power Hermes Non-Power Test Reactor Construction Permit Review in Roane County, Tennessee; docket number 50-7513.

The proposed project is outside of our area; therefore, we do not request government-to-government consultation with the United States Nuclear Regulatory Commission. While the Chickasaw Nation has no objection to the undertaking, we respectfully defer to the federally-recognized First American tribe(s) who have identified a connection to the project area.

Your efforts to preserve and protect significant historic properties are appreciated. If you have any questions, please contact Ms. Karen Brunso, tribal historic preservation officer, at (580) 272-1106, or by email at [karen.brunso@chickasaw.net](mailto:karen.brunso@chickasaw.net).

Sincerely,

A handwritten signature in black ink, appearing to read "Lisa John", with a long horizontal line extending to the right.

Lisa John, Secretary  
Department of Culture and Humanities
