~~**OFFICIAL USE ONLY**~~

James,

In response to the additional information request, BWXT NOG-Lynchburg is submitting the attached file which contains an updated Page 10-31 for Chapter 10, *Decommissioning*. Page 10-31 has been updated to correct the LTC decommissioning cost estimate figure to \$36,965,380 to align with the surety bond amount contained on Page 10-5 of our 12/7/2021 submittal. The password for the file will be sent in a separate email.

Thanks,
Steve

Subject: EXTERNAL: NRC RAI on financial assurance documents (EPID L-2021-DFA-0010)

Chris,

I talked with the NRC technical reviewer assigned to the NOG-L decommissioning funding plan submittal dated December 7, 2021 (ADAMS Accession Number ML21344A061). The NRC reviewer expects that the only request for additional information is in regards to the \$46,178,218 figure in the decommissioning cost estimate for the LTC that does not appear to align with the associated surety bond. As we discussed on the phone, NOG-L should submit any page changes needed to correct the dollar figure(s) in the submittal. The additional information should be provided within 30 days from the date of this email.

Pending your response, we anticipate completing our review by June 23, 2022. This date could change depending on the findings of our technical review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule.

In accordance with Title 10 of the *Code of Federal Regulations*, Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this email will be available electronically for public inspection in the NRC's Public Document Room, or from the Publicly Available Records component of the NRC's ADAMS.

Thanks,

James Downs, P.E.
