**Subject:** [External\_Sender] Comment on Kairos Test Reactor

Dear Sirs,

I want to express my strong support for the Kairos Hermes Nuclear Test Reactor being proposed for Oak Ridge TN. We absolutely need robust test facilities in order to support our generation 4 reactor technology, which is the future of energy in the US and the world. We need this capability as soon as possible and I support expedient approval of this project.

Sincerely,

Philip Carlson MD  
Emeritus Professor of Radiology
