Dear Dr. Gurinsky:

Re: State of Florida Radioactive Materials License Number 3067-2

Enclosed is amendment number 1 to the above referenced license. This amendment closes control number 20160718-1235.

Review the enclosed document carefully to be sure that you understand its terms and conditions. You must conduct your radiation safety program in accordance with the conditions of your license, representations made in your license application, and Florida regulations. Failure to conduct your program in accordance with Florida regulations, license conditions and representations in your application will result in enforcement action. Note that a license is valid only for the legal entity to which it is issued and is not subject to assignment, sale, or other transfer. Notify the department immediately if the identity of the legal entity, as listed in item 1 of the license, changes or if there is a change in the majority ownership or controlling interest of the legal entity. *Florida Statutes* require a new license application if any of these events occur.

You are responsible for verifying the accuracy of the enclosed amendment. Notify us immediately if you find anything in the enclosed amendment you consider to be in error. Please call us at (850) 245-4545 if you have any questions or require further clarification.
