Subject: Alliance Consulting, Inc., License Renewal Request for Additional information

Discussion:

- 1) I informed Mr. Parkulo that the checklist attached to the license renewal application was from NUREG 1556, Vol. 1, Rev. 1, and is outdated. I requested him to please use the guidance and checklist in NUREG 1556, Vol. 1, Rev. 2 and resubmit the renewal request.
- 2) I informed Mr. Parkulo that the license needs to specify the maximum quantity of radionuclides. He added that he would like to dispose of some Troxler 3411 gauges and add some InstroTek 3500 gauges. I asked Mr. Parkulo to include an updated list with the updated checklist.
- 3) Mr. Parkulo stated that Alliance Consulting never possessed any Humboldt Scientific gauges and requested their removal from his license.
- 4) Mr. Parkulo stated that Alliance Consulting is considering assigning another individual to be listed as the RSO and asked about the process. I informed Mr. Parkulo that once his company makes a final decision, that they should either request him to remain as the RSO or provide a certificate of training for a new RSO.
- 5) I requested Mr. Parkulo to provide a diagram of the gauge storage area indicating what areas are above, below, and adjacent to the storage area.
- 6) I requested Mr. Parkulo to provide a business cell number for himself or the proposed RSO.

Action Required: Alliance Consulting, Inc. will provide the requested information.
