

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 28, 2022

Dr. Steven R. Reese, Director
Oregon State University Radiation Center
100 Radiation Center, Room C102
Corvallis, OR 97331-5903

SUBJECT: OREGON STATE UNIVERSITY – REVIEW AND APPROVAL OF THE
REVISED OREGON STATE UNIVERSITY TRIGA REACTOR
REQUALIFICATION PLAN (EPID NO. L-2021-NFO-0012)

Dear Dr. Reese:

The U.S. Nuclear Regulatory Commission (NRC) staff completed its review of the Oregon State University TRIGA Reactor Requalification Plan (hereinafter “plan”), submitted by letter dated August 24, 2021 (Agencywide Documents Access and Management System Package Accession No. ML21236A342).

The NRC staff review finds that the plan is in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) Section 55.59, “Requalification,” and is consistent with the guidance contained in industry standard American National Standards Institute/American Nuclear Society 15.4-2016, “Selection and Training of Personnel for Research Reactors.”

During its review, the NRC staff noticed that the plan does not include the requirements associated with 10 CFR 55.59(c)(6), “*Alternative training programs.*” If Oregon State University finds the need to implement an alternative training program in the future, the licensee will have to submit a revised plan to the NRC for approval.

We request you implement your approved plan immediately.

S. Reese
