

U.S. DEPARTMENT OF  
**ENERGY**

Legacy  
Management

# Update to the Nuclear Regulatory Commissioners

William Frazier, PE

Site Manager, Office of Site Operations

April 22, 2022

# Agenda

- Introduction to Legacy Management (LM)
- LM Sites on Navajo Nation
- Northeast Church Rock Mine Site
- Closing Remarks

# Introduction to Legacy Management (LM)

- LM established in December 2003
  - Accepts sites after others complete environmental cleanup
  - Performs long-term surveillance and maintenance at the sites in perpetuity
- LM's **mission** is to fulfill the post-closure responsibilities of the Department ensuring the future protection of human health and the environment

# LM Sites on Navajo Nation

Mexican Hat, Utah

Tuba City, Arizona

Shiprock, New Mexico

Monument Valley, Arizona

# Northeast Church Rock Mine Site

- Accepting this site for long-term stewardship in the future
- Ensuring the remedy is continually protective of human health and the environment
- Continuing collaboration, which is paramount to this effort
- Engaging the regulatory agencies and impacted communities
