General Comment

Nuclear plant in Plymouth. Dismayed about a number of things supposedly done by Holtec. If allowed to dump waste water into Cape Cod Bay, I invite you to our beach in South Plymouth. Only 10 miles down the coast. You willing to come for a swim? Dis heartening to hear about the increase in accidents at the plant. Any truth to that? Heard about several employees having their clothing contaminated. Also new industry employees being hired on under new job classification (lower pay), at the expense of more experienced employees being let go. Any truth to that? Nothing being reported in the local news but hope you are listening - from Plymouth, Ma
