Dr. Prasant Mohapatra
Vice Chancellor for Research
Department of Computer Science
University of California
Davis, CA 95616

SUBJECT: REGENTS OF THE UNIVERSITY OF CALIFORNIA – REVIEW OF THE
PHYSICAL SECURITY PLAN IN SUPPORT OF LICENSE RENEWAL
APPLICATION FOR THE UNIVERSITY OF CALIFORNIA – DAVIS/MCCLELLAN
NUCLEAR RESEARCH CENTER (EPID NO. L-2020-NFR-0002)

Dear Dr. Mohapatra:

By letter dated June 11, 2018 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18179A501), the Regents of the University of California submitted a license renewal application (LRA) for a 20-year renewal of the Class 104c Facility Operating License No. R 130, Docket No. 50-607, for the University of California – Davis/McClellan Nuclear Research Center Training, Research, Isotope, General Atomics nuclear reactor. By letter dated July 6, 2020 (ADAMS Accession No. ML20188A368), the licensee updated its LRA to reflect its decision to reduce the licensed thermal operating power level from 2.3 megawatt thermal (MWt) to 1.0 MWt, and to eliminate pulsing capability and irradiation of explosive materials in the reactor tank. As part of the license renewal review, the U.S. Nuclear Regulatory Commission (NRC) staff reviewed the University of California – Davis (UCD) McClellan Nuclear Research Center (MNRC) physical security plan (PSP), dated January 25, 2021 (ADAMS Accession No. ML21029A147 (cover letter only)). By letter dated January 11, 2022 (ADAMS Accession No. ML22014A127 (cover letter only)), the licensee provided an updated version of the UCD/MNRC PSP titled “Physical Security Plan for The U.C. Davis/McClellan Nuclear Research Center”.

Based on its review, the NRC staff has determined that the UCD/MNRC PSP, dated January 11, 2022, is in compliance with the applicable regulations contained in Title 10 of the *Code of Federal Regulations* Part 73, “Physical Protection of Plants and Materials,” referenced in Regulatory Guide 5.59, “Standard Format and Content for a Licensee Physical Security Plan for the Protection of Special Nuclear Material of Moderate or Low Strategic Significance.”

We request that UCD/MNRC continue to implement its approved UCD/MNRC PSP. If you have any questions regarding the NRC staff's review, please contact me at 301-415-0893, or via electronic mail at Geoffrey.Wertz@nrc.gov.

Sincerely,

Signed by Wertz, Geoffrey
