Hey Robert,

Exactly, we only do medical research at MGUH. And for each study requiring the use of RAM we have a nuclear medicine physicians serve as an AU for the study.

So by default, the nuclear medicine physician representative serves as the research rep.

Matt

Good Morning,

In your response to my request for additional information (RAI) dated 3/17/2022 you provided a copy of your Radiation Safety Committee Charter. In Section 3, Membership, I do not see a representative from a Research Department. Is that because all of the research performed at MedStar Georgetown Medical Center is related to medical research?

Regards,

Robert L. Gallagher
