on 05/03/22

SUBJECT: PUBLIC MEETING SUMMARY: TELECONFERENCE MEETING  
WITH RARE ELEMENT RESOURCES, INC, REGARDING  
UPCOMING LICENSE APPLICATION

On March 29, 2022, the U.S. Nuclear Regulatory Commission (NRC) staff held a teleconference with representatives of Rare Element Resources, Inc (RER). The meeting was noticed on March 4, 2021, on the NRC's public website. Representatives from H-3 environmental, and the U.S. Department of Energy were also present for the meeting. A full list of participants present for the meeting is provided in Enclosure 1.

The purpose of the meeting was to discuss RER's upcoming license application. The NRC staff presented their findings from the pre-submission audit conducted on RER's application documents.

The NRC began the meeting by reading an opening statement and identifying those present on the call. The NRC staff then presented their findings for the pre-submission audit conducted on RER's license application documents. Comments focused on the environmental effects of the project, the radiation safety program, and general information regarding submission format and documentation. RER took note of comments and plans to address them in their application submittal.

After NRC staff comments were discussed, the NRC staff provided the opportunity for questions from members of the public present at the meeting. There were no questions from members of the public.

**Action Items**

One action item was identified during the meeting:

1. NRC staff will complete the meeting summary within 30 working days.

The meeting ended at approximately 2:00 pm eastern time.
