Title: Pre-application Meeting with Constellation Energy Generation, LLC

Date(s) and Time(s): May 10, 2022, 10:00 AM to 12:00 PM ET

Location: Webinar

Category: This is a Partially Closed meeting. Certain portions of this meeting will be closed to the public because the staff has determined that the information (is proprietary in nature, contains safeguards information, etc.).

Purpose: Constellation Energy Generation, LLC (the licensee) requested a pre-application meeting to discuss a proposed license amendment request (LAR) for Calvert Cliffs Nuclear Plant. Specifically, the proposed LAR would modify technical specification (TS) 3.1.4 to operate at less than 60% power after 8 hours at full operation with a dropped Control Element Assembly (CEA) within the core and to restore the CEA within 7 days. The licensee will present its submittal plans, the LAR's connection to other planned LARs and plant modifications, and details on the Framatome analysis supporting the proposed LAR.
