Office of Nuclear Material Safety and Safeguards (NMSS)
U.S. Nuclear Regulatory Commission
11545 Rockville Pike
Mail Stop TWFN D 439
Rockville, MD 20852-2738

Dear Mr. Devaser:

In accordance with the Memorandum of Understanding between our agencies, on July 14, 2021 I requested that you review the French Certificate of Approval No. F/381/AF-96, Revision EI, for the TNF-XI package and make a recommendation concerning our revalidation of the package for import and export use (Docket No. 71-3092 and EPID L-2021-DOT-0005). On March 14, 2022, you sent a Request for Additional Information (RAI) regarding this review.

Attached is the response to your RAI letter I have received from our applicant, TN Americas LLC on behalf of Orano Nuclear Package and Services (Orano NPS). Please note that enclosure 3 of their response is considered proprietary and they have provided an affidavit to that effect. Supporting files in electronic form were provided previously to you.

If you have any questions or need any additional safety information, please feel free to contact Michael Conroy of my staff at (202) 366-3597 or via email at Michael.Conroy@dot.gov.

Sincerely,

Richard W. Boyle,
Radioactive Materials
Division of Sciences and Engineering
Office of Hazardous Materials Safety
