---

Pat,

Attached is the NRC's Authorizing Official approval of the Interim Authorization to Operate Classified Systems from May 1 – November 1, 2022.

Access information for the locked document will be provided separately.

Note: I am setting up a BOX-EFSS (Enterprise File Sync and Share Platforms) that we can use to share OUO documents securely. Please let me know if you foresee any problems with using BOX-EFSS to exchange OUO documents.

Thanks.

Sincerely,

Matt Bartlett  
Sr. Project Manager
