Norma,

After looking at it. We would like to keep with the normal process and omit the renewal request at this time.

Thank you for giving us the opportunity of a courtesy review.

Thanks,
Scott

Good afternoon,

Please send me a letter for the renewal of both certificates and I will add it as a supplement in the CoC and specify that you want the renewals with the ongoing review.

Thanks,
Norma

Norma,

We would like to include a renewal with this revision for both the TRUPACT-II and HalfPACT only if it will not delay the schedule. If it will delay things, we will manage the renewals when the time comes. I apologize because that may not have been clear due to the extensive changes associated with adding the shielded containers.

Thanks,
Scott

Good afternoon, Scott,

Thanks for taking the time to review the documents. I have been having some formatting issues with the files. For the reference of the application, I usually used the most recent consolidated application and any additional information submitted afterwards. The latest revision of the consolidated application should include all the revisions discussed during the review, except the information submitted after the consolidated application. I added condition 14 with the date until April 30, 2023 in both CoCs.

For the TRUPACT-II, I thought that this was a revision and I was not aware that you also wanted to renew the CoC. Can you please clarify? The CoC expires in 2 years. Usually the expiration date remains the same during amendment and it is not changed unless the CoC holder requests renewing the CoC.

Please contact me if you have questions about this email.

Thanks,
Norma
