May 7, 2022

Rick E. Born
Radiation Safety Officer
Spicer Group, Inc.
230 S. Washington Ave.
Saginaw, MI 48607

Dear Mr. Born:

This letter is in reference to your request dated March 11, 2022, to amend your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 21-26099-01.

The U.S. NRC's guidance document for your proposed type of license is NUREG-1556, Volume 1, Rev. 2, dated June 2016, "Consolidated Guidance About Materials Licenses, Program – Specific Guidance About Portable Gauge Licenses." This guidance is available on the U.S. NRC Web site at: <https://www.nrc.gov/docs/ML1617/ML16175A375.pdf>

Upon review of the request, I identified the following area requiring additional or clarifying information:

Your request identified that you have discontinued use of the permanent storage facility located at 302 River St., Manistee, Michigan. You have requested that the former facility be removed from your license.

Submit records of transfer and/or disposal for all sealed sources or portable gauging devices previously used and/or stored at the former location. If transferred to another location in your organization, please state that and identify which portable gauging devices (including make, model and device serial number) were transferred and the date of the transfer. If transferred outside of your organization, please provide a copy of the transferee's license and a letter confirming receipt of the transferred portable gauging devices.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) §2.390 of the U.S. NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the U.S. NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the U.S. NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

To continue review of your request, please submit your response to this letter within 15 calendar days from the date of this letter. In your response, please refer to the license, docket, and control number specified below. I will assume that you do not wish to further pursue this licensing action if I do not receive a reply within the specified timeframe noted above.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, I encourage you to contact me at (630) 829-9737 or via e-mail at Jason.Kelly@nrc.gov.

Sincerely,

Jason M. Kelly, MPH
Health Physicist
Materials Licensing Branch
