MILLSTONE WEBER

April 12, 2022

Materials Licensing Branch
US Nuclear Regulatory Commission, Region III
2443 Warrenville Road, Suite 210
Lisle, IL 60532-4352

License No.: 24-35257-01

Amendment Request

Please amend license number 24-35257-01 to include:

8A. No single source to exceed the maximum activity specified in the certificate of registration issued by NRC or an Agreement State. Total Activity not to exceed 55 millicuries.

8B. 8A. No single source to exceed the maximum activity specified in the certificate of registration issued by NRC or an Agreement State. Total Activity not to exceed 244 millicuries.

9. Authorized Use:

A and B In Portable Nuclear Density Gauges used for measuring physical properties of materials to include: Troxler Laboratories Inc. (3400 models) and Instrotek, Inc. (3500 models). Total number of these gauges not to exceed 6. Ownership of each model would not exceed the following: Three (3) Troxler Laboratories, Inc 3400 model gauges and three (3) Instrotek, Inc. 3500 model gauges.

All other conditions of the license will remain the same.

Please feel free to contact me if you have any questions or need further information.

Sincerely,

David A. Wingenbach
Radiation Safety Officer

**Subject:** [External_Sender] RE: NRC License No. 24-35257-01 Amendment Request

Good Morning Erin,

Attached is a revised amendment request which details the maximum number of gauges we could possess as well as how many of each manufacturer and the model numbers.

Thank you and have a great day.

You don't often get email from erin.kennedy@nrc.gov. Learn why this is important

Thank you for taking the time to discuss your NRC license amendment with me today. As we discussed, our current licensing policy states that we must include the specific manufacturer (or distributor) and model number for each type of gauge you would like authorized on your license as well as the maximum number of gauges to be possessed and used under the license, by manufacturer and model number.

For your convenience, you may provided your signed and dated request as a PDF attachment to an email and send it to me directly.

Thank you,

*Erin Kennedy*
