B. Submitting Comments

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under Review - Open for Public Comments" or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov/> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Exemptions and Continued Regulatory Authority in Agreement States and in Offshore Waters Under Section 274 of the Atomic Energy

Act of 1954.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on February 4, 2022, 87 FR 6629.

1. *The title of the information collection:* “Exemptions and Continued Regulatory Authority in Agreement States and in Offshore Waters Under Section 274 of the Atomic Energy Act of 1954.”

2. *OMB approval number:* 3150-0032.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* One-time or as needed.

6. *Who will be required or asked to respond:* Agreement States who have signed section 274(b) Agreements with the NRC.

7. *The estimated number of annual responses:* 8.

8. *The estimated number of annual respondents:* 8.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 190.

10. *Abstract:* The Nuclear Regulatory Commission (NRC) regulations in part 150 of title 10 of the *Code of Federal Regulations* (10 CFR), provide certain exemptions to persons in Agreement States from the licensing requirements contained in Chapters 6, 7, and 8 of the Atomic Energy Act of 1954, as amended, and certain regulations of the Commission. The regulations in 10 CFR part 150 also define the Commission’s continued regulatory authority over Agreement State activities which include byproduct,

source, and special nuclear material reporting requirements related to reciprocity and enforcement. 10 CFR part 150 requires telephonic notification to the NRC when an Agreement State licensee identifies attempted theft or diversion of special nuclear material, byproduct material, and tritium. This notification must be followed by a written report either 15 or 60 days after the initial report, depending on the materials involved. If additional information is available after submission of the written report, an additional report is submitted. These reports are used to inform the Commission, staff, and other Federal agencies when special nuclear material, byproduct material, or tritium is lost or stolen.

Dated: July 11, 2022.
