Subject: [External_Sender] Request for Comment Extension; Regulatory Improvements for Production and Utilization Facilities Transitioning to Decommissioning

Hello,

Please find attached BlueGreen Alliance's request for an extension for the comment period of the Proposed Rule: Regulatory Improvements for Production and Utilization Facilities Transitioning to Decommissioning, Docket ID NRC-2015-0070. BlueGreen Alliance finds that in order to respond with thorough comments, taking into consideration the impact of this draft rule and the extensive records associated, an extension until August 31st, 2022 is necessary and vital. I appreciate your attention to this matter.

Best,
