TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 0609 App G, Att 1, "Shutdown Operations Significance Determination Process Phase 1 Initial Screening and Characterization of Findings." Exhibit 3, part C title was changed from Fire Brigade to Fire Protection since part C applies to more than just the fire brigade. A change was made to Exhibit 3 B. and question 8 was added that will screen to Green unless the issue is related to fire brigade, fire hoses, extinguishers, or hose stations. This was to avoid sending the reader to Appendix M inappropriately. Another change in Exhibit 4, question 3, removed the number "3" since it caused confusion since the elements contained in "3" for PORV/LTOP were contained within part "2".

IMC 2901, "Team Inspections." Significant update to align with current practices and clarified Purpose, Objective, Definition, and Responsibilities and Authorities sections so that the document provides high-level guidance applicable to all team inspections. Incorporated in Section 05.02 a. the ability to coordinate and collect information remotely via electronic means.
