

SAFETY INSPECTION REPORT AND COMPLIANCE INSPECTION

1. LICENSEE/LOCATION INSPECTED: Quality Inspection & Testing, Inc. 3001 International St. / 1881 Livengood Ave. (TJS) Fairbanks, Alaska 99701 REPORT NO.: 2022-001		2. NRC/REGIONAL OFFICE U.S. Nuclear Regulatory Commission Region IV, 1600 East Lamar Blvd. Arlington, Texas 76011-4511	
3. DOCKET NUMBER 030-32546	4. LICENSE NUMBER 50-29038-01	5. DATE(S) OF INSPECTION February 28, 2022	

LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed. 2021-001
- 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, to exercise discretion, were satisfied.
- Non-Cited Violation(s) was/were discussed involving the following requirement(s):
- 4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited in accordance with the NRC Enforcement Policy. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

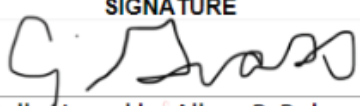

10 CFR 71.5(a) requires, in part, that each licensee who transports licensed material outside of the site of usage, as specified in the NRC license, or where transport is on public highways, shall comply with the applicable requirements of the U.S. Department of Transportation regulations in 49 CFR parts 107, 171 through 180, and 390 through 397.

49 CFR 172.704(c)(2) requires, in part, that a hazmat employee must receive the training required by 49 CFR 172 Subpart H at least once every three years.

Contrary to the above, on at least February 28, 2022, the licensee failed to provide the training required by 49 CFR 172 Subpart H to a hazmat employee at least once every three years. Specifically, a hazmat employee who last received the training required by 49 CFR 172 Subpart H on October 23, 2018, transported an exposure device containing Class 7 (radioactive material) on February 28, 2022, a period which exceeded three years. [Continued on Next Page]

Statement of Corrective Actions

I hereby state that, within 30 days, the actions described by me to the Inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

CONTINUED

This is a Severity Level IV violation (Enforcement Policy 6.3.d.4). In addition to providing the hazmat training required by 49 CFR 172 Subpart H to the hazmat employee, the licensee's corrective actions are to add electronic calendar reminders for all hazmat employees to ensure they receive the the training at least once every three years.

Hello Chris,

As discussed during the exit meeting earlier today, as a result of the NRC Inspection of Quality Inspection & Testing, Inc, one Severity Level IV violation was identified. Please review the attached inspection report form, sign and date the bottom of the first page of the form in the signature and date blocks next to your name, and return the signed and dated inspection report form to me via email.

Please let me know if you have any questions.

Thank you,
