Duane Arnold Energy Center
Docket 50-331
Renewed Op. License No. DPR-49

April 16, 2019, NRC Initial License Written Examination

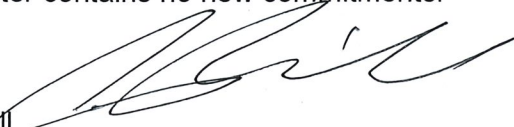

On April 16, 2019, the Duane Arnold Energy Center (DAEC) administered the LOIT Written Examination to nine (9) applicants (3 Senior Reactor Operator Instants, 2 Senior Reactor Operator Upgrades, and 4 Reactor Operators). A formal written examination review was conducted on April 16, 2019. Three (3) questions were disputed by the applicants as having either more than one right answer or having the wrong answer selected on the key. Exam item feedback forms were submitted for questions, 10, 28, and 70 on the Reactor Operator Written Examination. Of the 3 questions, the station feels only one (1) of the questions warrants a key change. On the Reactor Operator Written Examination, the station feels question 70 requires a key change and that choice B should also be accepted. The exam item feedback form contains the details for the station's request for a key change.

DAEC will not be submitting any challenges to the LOIT Senior Reactor Operator Written Examination.

DAEC is **NOT** requesting the written examination to be held from public disclosure.

If you have any questions, please call Clay Hill, Training Manager, at (319) 851-8152.

This letter contains no new commitments.

Clay Hill
