Good morning,

I just need to clarify whether any changes to the locations of use under either Condition 10.C. or 10.D. of License no. 21-01430-01 are needed. Specifically, in your request dated 3/14/22, you referenced Condition 10.D. in your license but the room being added is part of the 406 E. Elm street address, which is Item 10.C. in your license (it is possible you made an error in referencing the incorrect Condition number).

My understanding is that you will be using Tech-99 in the stress test room being added? Please confirm.

Please advise.

Thank you

Magdalena
