

# Alison Hahn

Mrs. Hahn has been with the Department of Energy's Office of Nuclear Energy since 2011. She has managed several programs including the Advanced Methods for Manufacturing and the Nuclear Science User Facilities within the Nuclear Energy Enabling Technologies program and, most recently, the Light Water Reactor Sustainability program. Currently, she is the acting Director for Nuclear Reactor Deployment which is focused on modernizing technologies and approaches applicable to both advanced reactors and light water reactors and supporting the deployment of a variety of advanced reactor designs. She holds a bachelor's degree in nuclear engineering from Pennsylvania State University and a master's degree in environmental engineering from John Hopkins University.
