

Drew Richards

Drew Richards is currently the Regulatory Affairs Manager at South Texas Project. Mr. Richards joined STP in 1990 in the Licensing department. Since then, he has worked in various groups including Thermal Hydraulic Analysis, Probabilistic Risk Assessment, and Operations. During his time in the PRA group, Mr. Richards was involved in the development and approval of the industry's first Risk Informed Technical Specifications application. He is the Chairman of the PWR Owner's Group Licensing Committee and is also a member of the Technical Specification Task Force. Mr. Richards holds a Bachelor of Nuclear Engineering degree from Georgia Tech.
