

Victor Cusumano

Mr. Cusumano joined the NRC in 2008 and is currently Chief of the Technical Specifications Branch. Before joining the NRC, Mr. Cusumano was a Senior Manager at Computer Sciences Corporation providing engineering support for the US Navy Guided Missile Destroyer program and the US Missile Defense Agency's AEGIS Ballistic Missile Defense program. Prior to that, he was Vice President of Engineering at Belzona, Inc., an industrial chemical and coatings manufacturer. He is a graduate of the US Merchant Marine Academy and operated shipboard power plants as a USCG licensed engineer. He is also a former US Naval Reserve officer.
