

## T3 Preapplication Engagement for New and Advanced Reactors

This session will discuss preapplication engagement with vendors of light-water small modular reactors and nonlight-water reactors, with a focus on encouraging early and robust preapplication engagement consistent with NRC’s established best practices, including the NRC’s draft white paper on preapplication engagement to optimize the review of applications for advanced reactors.

### SESSION CHAIR(S):

- The Honorable Christopher T. Hanson, Chairman, NRC

### SPEAKER(S):

- [Introductory Remarks](#)

[The Honorable Christopher T. Hanson](#), Chairman, NRC

- [Peter Hastings](#), Vice President, Regulatory Affairs and Quality, Kairos Power, LLC
- [Michelle Cattes](#), Senior Vice President, Regulatory Affairs, GE Hitachi Nuclear Energy
- [Tara Neider](#), Senior Vice President and Project Director, Natrium Demonstration Reactor, TerraPower, LLC
- [Michael Dudek](#), Chief, New Reactor Licensing Branch, Division of New and Renewed Licenses, NRR/NRC

### SESSION COORDINATOR(S):

- Adrian Muniz, Project Manager, Advanced Reactor Licensing Branch, Division of Advanced Reactors and Non-power and Utilization Facilities, NRR/NRC e-mail: [Adrian.Muniz@nrc.gov](mailto:Adrian.Muniz@nrc.gov)
- Carolyn Lauron, Senior Project Manager, New Reactor Licensing Branch,, Division of New and Renewed Licenses, NRR/NRC
