Good morning,

I have reviewed your request dated 3/16/22 to make changes to the subject NRC license.

In a signed and dated letter, please provide the following.

1. Clarify whether you are requesting 2 curies or 5 curies of Cs-131. My understanding is that you are seeking authorization for 5 curies. If that is the case, I would need a reason for such a large amount of material. Please note that you may always submit a request to increase the possession limit if more material is needed.
2. Please specify the location/s where the Cs-131 material will be used. Please provide facility/room diagrams if new locations/rooms are being added, which have not been already approved by the NRC.

Please acknowledge receipt of this email.

Please provide your response by June 3, 2022.

Thank you
