Materials Licensing Branch  
U.S. Nuclear Regulatory Commission, Region III  
2443 Warrenville Road, Suite 210  
Lisle, Illinois 60532-4352

**RE: Request for Extension of Term for Materials License No. 21-00215-07**

Materials Licensing:

The University of Michigan (U-M) requests to amend NRC Materials License No. 21-00215-07, which is currently scheduled to expire on August 31, 2022. Specifically, U-M is asking NRC to extend the term of the license by an additional five (5) years from the current 10-year term, in accordance with the Office of Nuclear Material Safety and Safeguards memorandum, "Procedure for Implementing the 15 Year Materials License Term" (August 18, 2017, [ML17200D112](#)).

The existing license information on file with the NRC remains current, U-M is requesting no other changes at this time, and U-M will continue to abide by the commitments in the current license.

Thank you for your timely consideration in this request. Please contact me [(734) 647-2251 / [kfish@umich.edu](mailto:kfish@umich.edu)] if you have any questions.

Sincerely,

**Karl W. Fischer**
