

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION**  
REGION III  
2443 WARRENVILLE RD. SUITE 210  
LISLE, IL 60532-4352

June 6, 2022

Thomas L. Rosamond, M.D.  
Radiation Safety Officer  
Mid-America Cardiology Associates, Inc.  
1530 N. Church Rd.  
Liberty, MO 64068

Dear Dr. Rosamond:

Enclosed is Amendment No. 21 to your U.S. Nuclear Regulatory Commission (NRC) Material License No. 24-26254-01 for Mid-America Cardiology Associates, Inc. in accordance with your application dated December 10, 2021 to renew your license. Please note that the license has been renewed for 15 years.

Additionally, note that in accordance with our telephone conversation on June 2, 2022, your request to change your name to "The University of Kansas Hospital of Kansas Hospital Cardiovascular Services", will continue to be addressed under a separate licensing action.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the NRC Region III office at (630) 829-9887 so that we may provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's expectations for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

R. Rosamond

- 2 -

In accordance with 10 CFR 2.390, a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Cassandra F. Frazier  
Senior Health Physicist  
Materials Licensing Branch
