On June 2, 2022, from 5:00 p.m. to 6:00 p.m. (CDT), an information meeting with a question-and-answer session was held by representatives of the U.S. Nuclear Regulatory Commission (NRC) to provide the public with information on the 2021 end-of-cycle plant performance assessment of Braidwood Station and Byron Station, and with general information on the NRC. The open house was held virtually via Microsoft Teams. The NRC representatives discussed plant performance with members of the public. Representatives from Constellation Nuclear were also present at the event.
