

2022 Communication Log for the

Certification Board of Nuclear Cardiology, Part of the Alliance for Physician Certification and Advancement™ Medical Specialty Boards and Certification Programs

When the NRC communicated with specialty boards, email communications were retained as official records. Phone calls and/or meetings were summarized in writing. The following correspondence is included in ADAMS as publicly available to ensure that the NRC meets the agency's Official Record goals.

Subject: [External_Sender] RE: [EXTERNAL]CBNC Certification questions

Good afternoon, Daniel.

The NRC should use the original name “Certification Board of Nuclear Cardiology, Part of the Alliance for Physician Certification and Advancement™ Medical Specialty Boards and Certification Programs” on its websites and in your documentation.

The new CBNC certificates with the change in signatures became effective January 1, 2022.

Thank you for allowing the CBNC to clarify this information.

Kind regards,
Kathy

Kathy Kelly

Subject: [EXTERNAL]CBNC Certification questions

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good Morning,

My name is Daniel DiMarco and I am with the NRC, working on the certification review process for CBNC. I have two questions about the board and the documents you submitted to us for review.

First, we have the name of the board as "Certification Board of Nuclear Cardiology, Part of the Alliance for Physician Certification and Advancement™ Medical Specialty Boards and Certification Programs" on our public website and in our documentation. The documents you submitted to us has the board name as "Certification Board of Nuclear Cardiology". Would you still like to be referred to as the original name or is it acceptable to use the simplified name?

Second, we received a new certificate reflecting a change in the signatures of the chair and vice-chair when you submitted the response to our request. Do you have a date when this new certificate became effective?

Thank you very much for your time.

-Daniel DiMarco

Subject: [External_Sender] CBNC Reaccreditation Response

Good morning,

As requested in the March 15 communication from the Nuclear Regulatory Commission, the reaccreditation response from the Certification Board of Nuclear Cardiology is attached.

Please let me know if there are any questions.
