Inspection and Oversight Branch  
Division of Fuel Management  
Office of Nuclear Material Safety  
And Safeguards

SUBJECT: INC is submitting for your approval QAP rev 15.

Inc has revised its QAP to Revision 15. We have incorporated the use of EPID L-2020-TOP-0011 to sec 18.0.5 allowing suppliers of testing or calibration services may be qualified by audit, survey or review of third-party certifications as allowed by EPID L-2020-TOP-0011 and listed on the Approved Suppliers List for the related certified scope of work. Per discussion with NRC, this revision is considered a degradation of quality, therefore NRC approval is required.

If you have any questions or concerns please do not hesitate to contact me at the information below.

Please contact Mike Rose at 510.352.6766 if you have any questions.

Sincerely,
