Subject: Request to remove a location of use -NRC license no. 15-29260-01
Date: Friday, May 20, 2022 11:47:00 AM

Good morning,

I have reviewed your request dated 4/21/22 to remove a location, located at 550 E. Saint Louis St. Springfield, Missouri from your license.

In a signed and dated letter, please provide the following:

1. The most recent leak test results for every gauge used at the location illustrating that none of the gauges leaked.
2. Provide disposal information for each gauge. Specifically, specify the final destination for the gauges (the gauges were transferred to your other location of use OR transferred to an authorized recipient).
3. If the gauges were transferred to an authorized recipient (outside of your organization), please provide an acknowledgement of receipt of the gauges and information that the recipient was authorized to receive the gauges (e.g. a copy of a license, etc.).
4. Please provide confirmation that you do not have any radioactive material at 550 E. Saint Louis St. Springfield, Missouri, 65806.

Please acknowledge receipt of this email.

Please provide your response by June 10, 2022. You may email your response directly to me.

Thank you

Magdalena R. Gryglak
