Good morning,

I have reviewed a request from Dr. Gordon to name a new Authorized Medical Physicist (AMP), Anthony Fernando, M.S. on NRC License no. 13-32551-01. Please forward the email to Dr. Gordon.

Because Mr. Fernando was a named AMP on your NRC license more than 7 years ago, I will need some additional information regarding his continuing education and experience in accordance with 10 CFR 35.59.

Specifically, in a signed and dated letter (by Dr. Gordon), please provide the following:

1. Any training/classes taken within the last 7 years refreshing knowledge of radiation safety, instrumentation and calibration of equipment, performing radiation surveys, performing leak tests and inventories, etc.
2. Provide experience (dates, location/s) in performing work as an AMP working with high dose rate remote afterloaders within the last 7 years. The licensee's letter dated 4/15/2022 stated that Mr. Fernando received training in the operating and emergency procedures. Please provide additional details regarding the training (e.g. dates, location). Further, please explain whether Mr. Fernando received the hands-on training in HDR operation, emergency procedures, clinical use, and the operation of the treatment planning system as required in 10 CFR 35.51(c).

Please acknowledge receipt of this email and let me know if you have any questions.

Please provide your response by June 9, 2022.
