I appreciate the staff's timely response to the Commission's direction in SRM-SECY-21-0066. Given the scope and timeframe of the rulemaking plan approved by the Commission in SRM-SECY-22-0024, I approve the staff's recommendation to defer the initiation of the 10-year regulatory review and update until the next 10-year review cycle. I agree with the staff that this option will more likely yield issues and information ripe for review and consideration for changes to the findings on relevant NEPA issues. I appreciate that the staff plans to mitigate any expected loss of institutional knowledge resulting from the delay to this rulemaking effort by conducting hiring, knowledge management and transfer, and mentoring of new staff members.
